

applicable to a national securities exchange, and in particular, the requirements of Sections 6(b)(5) in that it is designed to prevent fraudulent, manipulative acts and practices and to promote just and equitable principles of trade, and to remove impediments to and protect the mechanism of a free and open market and to protect investors and the public interest.<sup>4</sup>

The Commission believes that another public governor on the Exchange Board will render the Board more balanced, fair and effective. Similarly, adding another public governor to serve on the Executive Committee will serve to increase the influence of outside directors regarding the administration of the Exchange.

While the Commission views the addition of a public member to the Exchange's Board of Governors as an encouraging initial step towards a more balanced Board composition, the Commission continues to encourage the Exchange to consider adding more public members to its Board in order to achieve a public majority on the Board. The Commission believes that significant representation by public governors on the Board is desirable and should ensure better protection of investors and the public interest. Public governors are likely to have little or no stake in internal Exchange politics, and, if carefully selected, public governors should bring diverse experience and increased ethical sensitivity to the Board, thus enhancing the confidence of members and of the public in the Exchange's ability to govern its members appropriately.

It is therefore ordered, pursuant to Section 19(b)(2) of the Act<sup>5</sup> that the proposed rule change (SR-PCX-97-27) is approved.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.<sup>6</sup>

Deputy Secretary.
